

Francisco Calvo

Systems Analyst Technician | Full-Stack Web Developer

Buenos Aires, Argentina

franciscocalvo.dev@gmail.com | +54 291 5081681 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL PROFILE

Advanced student of Systems Analysis Technician degree with a focus on Full-Stack software development. I have over 1 year of hands-on experience in roles related to web development and database analysis, primarily applying languages and technologies like Python, JavaScript, MySQL, Docker and frontend frameworks such as React.js, Vue.js and Angular.

I stand out as a bilingual professional (Spanish – English) able to work in international environments with a results-driven mindset and a commitment to agile methodologies, supported by strong communication and teamwork skills developed under pressure through my experience as a Certified Basketball Referee.

I am looking to join a development team/project where I can contribute my technical knowledge and soft skills, continue growing professionally, and help deliver real-impact technology solutions.
